Written Portion

Lab1 Assignment

Name: Annie Hayes (ahayes5@g.clemson.edu)

Due Monday, January 18, 2021 at 11:59

## - PART 1 -

### COURSE SYLLABUS:

1. In this course, the final grade will be based on a 10-point scale. Complete the following chart according to the Dr. Feaster's grading criteria.

Numerical grade	Letter grade
89.5	B
69.9	D
95	A

2. True / False

If the class average on an exam is 65 and the highest grade in the class is 90, Dr. Feaster will apply a 5-to-10-point curve on the exam.

**FALSE**

3. Suppose an exam grade, homework, programming assignment, or lab grade was returned to you and you found a possible mistake in the grading or points calculation. What is the procedure you need to take to get this corrected? What time frame should you do this by. Answer this for both the course and the lab.

**Lecture:**

The regrade request must be emailed to Dr. Feaster one week of the date the grade is available. The subject line must be "CPSC 2310 Regrade Request."

**Lab:**

The regrade request must be communicated to the Graduate TA in charge of your lab through email within 7 days of the date the grade is available. Your email must have the subject line "CPSC Lab 2311 Grade Review Request"

4. Answer this based on the scenario of taking an exam.  
The exam has begun and you are 15 minutes late. You start the exam but when the time is up you are not finished. What do you need to do?

**You should submit your exam; extra time is not allotted to students who are late to exams.**

5. What are the criteria to exempt the final exam in this class?

You must submit a form on Canvas near the end of the semester.

6. What is the consequence of cheating in class or lab?

The consequence for cheating in class or on a lab is an academic dishonesty charge along with a -100 on the assignment or an automatic F in the class.

7. If you are not sure if an action constitutes cheating what should you do?

A good rule of thumb is if you are not sure if an action is considered cheating, ask the instructor.

8. What are office hours for the class?

Office hours are Monday from 1:00 pm – 2:30 pm and Wednesday 2:00 pm – 3:30 pm EST.

9. Each day the class meets using a zoom session. Should you attend the zoom session or wait and watch it when the recording is posted? Explain your answer?

You should attend class; missing even a single class can make it difficult to keep up with course material.

10. What are the tentative dates for exams?

The tentative dates for exams are as follows: Monday, February 8<sup>th</sup>, March 8<sup>th</sup>, and April 12<sup>th</sup>.

11. How will the exams be administered?

The exams will be administered through Canvas using Lockdown Browser.

12. What type of technology will you need to take an exam?

To take an exam, you will need a laptop with a webcam and microphone.

13. What do you need to do if you know in advance that you will miss an exam?

If you know in advance that you will miss an exam you need to inform the professor and have adequate documentation for the reason your exam is being missed (i.e. university issued letter a week in advance or a doctor's note).

14. Can you work with another student on any homework, lab, exam, or other assignments?

No, you cannot work with any students on homework, labs, exams, or other assignments.

15. What is the date and time of the final exam?

The date and time of the final is Tuesday, April 27<sup>th</sup>, 3:00 pm – 5:30 pm.

16. What is the last day to drop a class or withdraw from Clemson without final grades?

The last day to drop or withdraw from a class without final grades is March 12<sup>th</sup>.

## **LAB:**

17. What are the names of your TA's and what section are you in?

CPSC 2311-003

18. Where can you find the lab assignments each week?

You can find the lab assignments on Canvas each week.

19. With respect to lab attendance: On Tuesdays, you must arrive to the zoom meeting on time and stay until ??? There should be two things you discuss here.

You must arrive on time at the beginning of the lab and stay until you either 1) the lab period is over, or 2) you have submitted your work and confirmed its receipt with your lab instructor.

20. True/False: I can expect the TA's to answer my email any day of the week at any time of the day.

FALSE

21. What will your grade be if you do not attend the Tuesday lab section and you have not discussed your absence with the GTA?

If you do not attend Tuesday's lab section and haven't discussed your absence with the graduate TA, you will get a 0 on the lab.

22. True/False: Assume you are using handin to submit a lab assignment. It is 12:00 midnight and you are just getting around to turning in your lab assignment. The handin bucket is now closed, therefore, you will need to email the assignment to your TA.

FALSE

23. Assuming handin is the mechanism for submitting a particular lab. Suppose you have all lab documents tar.gz'ed and ready to submit through handin. Describe what you should do after submitting your work through handin and the possible consequence if you do not.

You should double check your tarball to make sure all the correct files are tarred and that they have not been corrupted. Corrupted or incorrect tarred files will be an automatic zero.

24. Approximately how many labs will you complete this semester and how many will actually count toward your final grade.

There are approximately 10 – 12 labs this semester, but only 10 of the labs will count for your final grade.

25. What percent do labs count toward your final grade in CPSC 2310?

Labs are 10% of your final grade.

26. True/False: If you need to email a lab TA or myself you can use any email account to do so?

FALSE

27. List one or more “C” concepts you would like to review this semester.

Two concepts that I would like to review are pointers and truncated numbers.
